FP Web Designer

€ 449.-
(net price)

Contents of KITFPWEB:

- FPWEB2
- FPWEBTOOL2D
- AFPS36510-E

(250 process points
15 views
1 offline trend and
1 alarm)

With the powerful **FP Web Server** all FP-series controllers can be connected to the Ethernet. No changes to the PLC programs are necessary. Simply assign an IP address to the FP Web Server and connect the PLC to it via the serial RS232C interface.

Configuration of the FP Web Server is easily done with the **FP Web Configurator Tool**. A standard browser, e.g. MS Internet Explorer,

can be used for access at the PC.

FP Web Designer, an easy-to-use editing tool helps the users to create websites for visualizing process data collected by FP Web-Server.

No programming knowledge for HTML, PHP, Java-Script or Java is required!

Extensive graphic libraries can simplify the design work even more.
